I enjoy XM Satellite Radio. According to the first Ammendment all American Citizens have freedom of speech and rights. It was my deicison to choose XM Satellite Radio. XM Satellite Radio offers me a variety of different music to listen to and I really enjoy it. I am urging the FCC to reject NAB's petition 04-160. Listening to the traffic and weather channels is a big help. I feel that it is totally ridiculous for the NAB to think that people will stop listening to the radio.
